For the 2009 11's Academy program, players must be born in 1998.

"The importance of laying a sound coaching foundation for young players cannot be overstated.

The Football Academy will be exciting, informative and will follow the new National Curriculum to enable young football players to reach their full potential.

Players - both male and female - must be enthusiastic, have a desire to improve and be prepared to work hard. Once players are accepted into the program, they must fully commit themselves to attend every coaching session and be prepared to follow instructions from their Coaches.

I endorse the Football Academy initiative and support the new National Curriculum's concept".
